

USING NON-BLUETOOTH LOCKBOXES AFTER CARD DEPRECATATION

NON-BLUETOOTH LOCKBOXES

NXT

NXT Wireless

GEN I

GEN II

WHAT DOES CARD DEPRECATATION MEAN TO ME?

AS OF MARCH 1, 2024

ALL SENTRILOCK CARDS WILL CEASE WORKING.

Agents who OWN non-bluetooth SentriLock boxes or have them on their listings will be restricted to the below:

LOCKBOX OWNERS WILL NO LONGER BE ABLE TO:

❖ **Change Batteries on Non-Bluetooth Lockboxes**

Without a SentriCard, agents and HCAR staff will be unable to re-set the clock and settings for dead lockboxes.

❖ **Transfer ownership of Non-Bluetooth Lockboxes**

Without a SentriCard, there is no way to transfer the ownership of these lockboxes to a new owner.

❖ **Customize the Region of Non-Bluetooth Lockboxes**

Agents who do not have SentriLock access to the region of Howard County, Maryland will not be able to access your non-bluetooth lockboxes.

❖ **Recalibrate, Repair, or Troubleshoot Non-Bluetooth Lock boxes**

SentriLock Support and HCAR staff will no longer be able to assist in troubleshooting these generations of lockboxes.

AGENTS WILL STILL BE ABLE TO:

❖ **Open Key Compartments**

Using the SentriKey Mobile app, listing and showing agents will be able to generate Mobile Access Codes to open key compartments of non-bluetooth lockboxes.

❖ **Release Shackles**

Using the SentriKey Mobile app, you will be able to generate Shackle Release Codes to release the shackles of non-bluetooth lockboxes.

❖ **Assign Lockboxes to the Listing**

Using the SentriKey Mobile app, assign and unassign lockboxes to/from the listings you have placed them on to keep track of your lockboxes and improve app communications.

❖ **Generate One Day Codes**

Using the SentriKey Mobile app you can generate One-Day Codes to grant access to non-sentriLock users. *Inspectors, Appraisers, Contractors* (Please use this code wisely, as all uses of One Day Codes are a liability of the Listing Agent)
